

Join Together—Join HCCMCA

The Health Care Cost Management Corporation of Alaska, Inc. (HCCMCA) negotiates cost savings with hospitals, physician and provider groups, prescription drug managers and other service providers for the benefit of its member health plans. By joining together, health plans gain power to negotiate better coverage and better prices from service providers. This allows health plans to lower health care costs for their own plan participants.

HCCMCA provides competitive benefit options for over 20 health plans, ranging from 150 to more than 16,000 employees and families each. HCCMCA members represent various types of plans, including Taft-Hartley Trust Funds, government health plans, public sector trusts and single employer plans.

HCCMCA provides a wide range of programs and services, from hospital and vision care PPOs to physical therapy services, from health fairs to prescription drug purchasing arrangements and more. Members may use all or just a few of HCCMCA's services, taking advantage of those programs that best fit their needs.

"HCCMCA has done a tremendous job in keeping our costs down by assisting Beech Street's negotiations with doctors, hospitals, labs and others."

Pat Giles
UNITE HERE Local 878

Our Mission

HCCMCA's mission is to ensure that workers and their families have access to value and quality-based health care benefits and services.

"HCCMCA offers a wide range of cost-saving programs and services to members in addition to expertise and extensive knowledge relating to health plan administration. We enjoyed nearly \$1.3 million in plan savings during 2008 through the Beech Street and Alaska Regional Hospital PPOs."

Dawn Maranville
Fairbanks North Star Borough School District

HCCMCA is committed to:

- Promoting the Health Care Coalition Concept
- Encouraging organizations to work together to maximize opportunities
- Providing information to participants that empowers them to make better health care decisions
- Serving as a statewide voice of health care concerns and issues
- Adhering to the principles of high ethics, equity and integrity
- Serving the needs of the HCCMCA member plans

JOIN HCCMCA

Less Cost, Better Services, More Control

Through HCCMCA, health plans offer their plan participants outstanding benefits and high-quality health care services – *at lower costs.*

SAVE MONEY

HCCMCA negotiates service contracts for member health plans, reducing annual health care costs for many by more than \$1,200 per employee. After negotiating an agreement, HCCMCA then monitors results to achieve the best possible savings and service for member plans and their participants. HCCMCA also helps research new programs and addresses service issues, reducing administrative costs.

HIGH-QUALITY SERVICES

HCCMCA continuously works with well-known service providers to develop and add service options. HCCMCA also participates in a 'Coalition of Coalitions' to take advantage of programs negotiated by other groups.

“Although our health plan is relatively large, HCCMCA still helped us improve pricing and service. We also work with other HCCMCA members to share best practices, allowing us to provide better benefits to our plan participants.”

Larry Bell
Co-chair, Alaska Electrical
Health and Welfare Trust

RUN BY AND FOR MEMBERS

HCCMCA, formed in 1994 by health plan representatives and industry professionals interested in reducing health care costs, exists solely to benefit its member health plans.

Today, HCCMCA is operated by a Board of Directors comprised of two representatives from each participating health plan. This structure gives members more control and allows them to monitor HCCMCA's activities, as well as participate in and direct programs.

“In 2008, we saved about \$15 million by using HCCMCA’s PPO networks, and we maintained prescription benefits with no cost increase. Plus, our participants benefit from HCCMCA’s health promotion programs. About 600 people attended health fairs and more than 800 use their disease management program.”

Benefits Trust

Membership FAQs

Q: How can a health plan join HCCMCA?

A: Plans sign an agreement with HCCMCA and pay an initial one-time fee of \$3 per employee. (This initial cost is often recovered in the first year, by active participation in the HCCMCA's programs.) New member plans then select two individuals to serve as voting members of HCCMCA's Board of Directors.

Q: Are there additional costs to participate in programs?

A: Yes, HCCMCA charges an access fee for each program. Member plans complete a participation agreement, identifying the programs they want to use and then pay the access fee for each program. These fees fund the initial cost of new programs and pay for ongoing program costs. Member plans may also need to sign an agreement with the service provider(s).

Q: Are member plans required to adopt a particular schedule of benefits or use a designated administrator?

A: No. Each plan may continue to use its own plan design and administrator. Generally, few if any changes are required. Some provider contracts may require incentives for participants to use participating providers.

Q: Do member health plans have to participate in all of HCCMCA's programs?

A: No, each plan may choose the program(s) that best fit its particular needs.

Q: How can I determine whether HCCMCA is right for my health plan?

A: Contact HCCMCA at (907) 474-4226 or (888) 474-4226.
